

KNOW YOUR MANUFACTURER

In a world where the quality of a product is sometimes hard to determine, Second Nature consultants have the advantage because they know their manufacturer.

Knowing *how* a product is made and *by whom* is important.

Second Nature brings you a product first in quality assured by our partnership with a manufacturer who:

- 2^N_D ...has been in the business of manufacturing natural sources vitamins, minerals and herbs since 1959 in North America with a primary focus on 'first in quality' for almost 50 years.
- 2^N_D ...is a licensed pharmaceutical manufacturer.
- 2^N_D ...was on the very launching pad of the multi-billion dollar nutrition and health industry.
- 2^N_D ...were invited to the White House Conference on Nutrition, conducted by Dr. Jean Maier.
- 2^N_D ...employs PhD accredited chemists, scientists, researchers and master herbalists who have devoted their lives to helping others physically, mentally and now financially.
- 2^N_D ...are dedicated in their belief of the importance of good nutrition and quality food supplements.
- 2^N_D ...realize the need to keep up with new discoveries in the rapidly expanding science of natural products, especially in the field of nutritional supplements.
- 2^N_D ...meet these changes and improvements while maintaining a standard of highest quality products by owning their own state of the art laboratory.
- 2^N_D ...adhere to strict Good Manufacturing Procedures, (GMP). Batch isolation in individual areas, eliminating any possibility of cross contamination.

- 28 ...requires that all raw materials purchased receive a Certificate of Analysis assuring they meet our high standards for purity potency and uniformity.
- 28 ...have all products pass strict quality control tests before being released. Each batch is tested for disintegration time assuring proper assimilation of nutrients.
- 28 ...uses only natural source ingredients in our products, creating the finest nutritional and herbal supplements available.
- 28 ...work areas are kept clean, and workers observe proper health code procedure.
- 28 ...air conditioning throughout the laboratory helps control moisture and helps maintain a constant temperature, good for the work force as well as the products.
- 28 ...has a special Research and Product Development team work to meet the ever changing needs of people with new and improved nutritional supplements.
- 28 ...chemists and herbalists meticulously research, test and analyze every supplement and specialize in blending nutrients that complement each other, creating effective, nutritional products.
- 28 ...have chemists that review data from the latest nutritional reports.
- 28 ...analyse products, using the latest technological equipment.
- 28 ...at every step of the manufacturing process, insure quality control is the watchword. Highly efficient laboratory equipment is used to test for consistent purity and potency throughout the manufacturing process.

Our manufacturing partner complies strictly with:

- 28 ...all laws and regulations of local, provincial, state and federal governments.
- 28 ...Food and Drug Administration (FDA) regulating the US trade.
- 28 ...Health Department and Consumer Protection Bureau in Canada. These agencies are designed to protect the public against the marketing of dangerous or deceptively promoted products and against unscrupulous marketing and distribution practises. We wholeheartedly agree with these principles.
- 28 ...Department of Agriculture licensing regulations as a food processing plant and as a pharmaceutical manufacturer. Being a licensed pharmaceutical manufacturer requires higher manufacturing standards than food processing plants making vitamins.
